Rspec	Photoshop
Angular	PowerPoint
Postgres	Excel

ME

Weightlifter / Gym addict
Certified Personal Trainer
Lived in Portugal for two years
Naturally curious
Passion for leaning
Intuitive problem solver
Boston Terrier lover
Gamer / Nerd

TESTIMONIAL

"Paul is one of the best developers that I have had the pleasure to work with…He was integral to all our operations and in every part of our product that we dealt with. He was key in our move from our monolithic structure to SOA, as well as making vast improvements to our current product. He has proven himself time and time again to write clean, creative, reliable code and he has made great improvements to our test coverage. More than all of this, Paul is a reliable and fun guy. He always was boosting our team with his positive attitude and mentored everyone around him. I cannot recommend him enough, he will be a key player wherever he goes and is trustworthy as the day is long"

- Michael Jenkins
Sr. Software Engineer, MasteryConnect
